THE COMMUNIST CONVENTION.

Since the beginning of November attention has been repeatedly called in these columns to the proposed holding of what is termed a "People's Convention for a People's Government," to be held on Sunday, 12 January. There is here a very sinister similarity to the methods employed in working up the Revolution in Russia in 1917. The proposed Convention, which is most certainly controlled and has been largely advertised by the Communist Party, was originally scheduled to be held in the Free Trade Hall, Manchester, but that hall has been destroyed in air raids. Hence the decision to hold the Convention in London. But the place of meeting in London was kept secret, and only on the 6th inst. was it disclosed that the Royal Hotel, Woburn Place, had been booked. An urgent appeal has been made through the *Daily Worker* for 200 volunteers to act as guides for the delegates.

It is necessary in the national interests to expose the real nature and purpose of this Convention. It is definitely a Communist Convention, and to call it a People's Convention is untrue. Not even the support of a number of clergymen and professors—a fact constantly emphasised by the Communists—can camouflage its Communist origin and control. The *New Leader*, 28 December, stated, what is a fact, that

"The 'People's' Convention was initiated by the Communist Party. The original call was signed almost exclusively by C.P. members and 'contacts' of the party, either its conscious instruments or misled innocents. Since then certain sincere and well-meaning individuals and organisations have associated themselves with the Convention, but no one with any knowledge of the working-class movement has any doubt that the determining voice in control and policy is that of the Communist Party."
